## RETAIN THE HALF HOLIDAY.

A GENERAL SENTIMENT AMONG WORKING-MEN IN ITS FAVOR.

Appeals from Workshops for a Little Extra Breathing-Spell-Employers Who are Only Waiting for Others to Fall in Line-Merchapte Would Not be Inconvenienced Long-Why Some are Opposed to It.

One argument which is used by those who are advocating the repeal of the Saturday Half-Holiday act is that workingmen and women have all Sunday for purposes of recreation. Such a proposition, of course. should have little weight, for many persons, on account of religious scruples, are unwilling to seek amusement on that day.

It is also true that many workers are so tired on Sunday, after six full days of toil. that they do not care to leave their home until Monday morning, when the round of work begins again. The value of the Saturday half holiday to such persons is obviously

It is safe to say that if a vote were taken among the readers of THE EVENING WORLD the majority in favor of the half holiday would be overwhelming.

The following interviews with persons selected at random show the prevailing public sentiment in the matter :

Charles Miller, foreman in Becker's factory in West Eighteenth street, said: "Our men are heartily in favor of the half holiday and hope it will become general. It would be better for those so-called legislators who have a half holiday every day to attend to enacting just laws than to strive to repeal

them."

J. Scott, employed in Mitchell, Vance & Co.'s brass works, said: "When I tell you that I am in favor of the Saturday half heliday I voice the sentiments of all my shop-

Successful."

S. P. Cassidy, of Harrison's chair factory in West Twenty-first street, said: "Yes, we are all inferested in the continuance of the Saturday half holiday, and it would be a hardship if we were deprived of it. I am very glad to know that The Evening World is

glad to know that The Evening World is championing our cause."

Miss Sadie Muller, employed in a large shoe store on Sixth avenue, said: "When you work five days of the week from 8 A. M. to 5 P. M. you are glad to be permitted to go home at noon on Saturday. The half holiday is a great thing for us in summer, and is greatly appreciated. I am glad that The Evening World is interested in the subject."

Tilsey Bates, a contractor, of Twenty-third street, said: "Where the opposition to the Saturday half holiday Mes I cannot see. I allow my men a half a day off on Saturday, and find them more willing to treat me right and do better work in return."

and find them more willing to treat me right and do better work in return."

William Moran, plumbing, Ninth avenue, near Forty-eighth street, said: "I agree with THE Evening World in every particular regarding the Saturday working hours, and if the half-holiday system becomes regular I shall be happy to fail into line and give my men a half day off."

Didge Chardle, said: "When The Even

As it is they are obliged to work the entire day. We all read The Evening World and think its new crusade a good one and wish it success."

One of the most propupped advocates in

One of the most pronounced advocates i One of the most pronounced advocates in this city of the Saturday half holiday is Mr. Alexander Miller, proprietor of a grocery store at 241 Fourth avenue. Speaking to an Evenino World reporter, he said: "You may put me down, sir, as advocating the Saturday half holiday the year round most emphatically. I think that a man who works hard during the week deserves six hours on Saturday for recreation. I am sure workingmen deserve it. Perhans business men might erve it. Perhaps business men might for a while be inconvenienced, but matters would regulate themselves after a time, and

all hands would prosper by it."

Frederick W. Baker said: "Why should capitalists begrudge poor men a few hours' recreation each Saturday? Heaven knows the laboring man has little enough sunlight on his life, and if the law gives him a few ours each Saturday for his family or for st, he certainly should have the time." While the movement for the repeal of the While the movement for the repeat of the Half-Holiday act originated with the bankgrs, it receives a little support from other quarters. full sympathy with working men and women, their views are naturally more or less colored by their business interests. Following are some interviews which explain the source of this opposition to the half holiday:

At Fisk & Robbins's, on Broad street, neither of the proprietors being in, the cashier said: 'From September to the present time our trade is not noticeably less on account of the half holiday; but during the months of July and August there is nothing doing."

doing."

J. M. White, restaurant, 56 New street, said: "Why certainly the half holiday affects me. Business has fallen off over one-half on Saturdays."

Julius Childs, proprietor of the Exchang Buffet, opposite the Stock Exchange, said:
"The balf holiday has cost me \$3,000 since it started. The Exchange closes at 12 o'clock, everybody goes uptown, and it is awfully dull around here. My customers don't like

it either, and a great many of them attribute the falling off of business to this law." W. P. Mackin, manager of the Stock Exchange Cigar Emporium, expressed himself as follows; "This place is like a dead-house on Saturday afternoon now, the trade we catch being a few stragglers going to the

ferry."

C. H. Richter, owner of a café on Pine street, said: "We don't want any Saturday half holiday. It knocks the spots out of our trade, A great many of the brokers don't come to business at all on Saturday."

### FOWLER'S STORY IS DOUBTED.

### The Government Will Push the Cases of Stain and Cromwell-" The Worst Lie Yet." [SPECIAL TO THE WORLD.]

BANGOR, Me., Feb. 16.-The Fowler story regarding the whereabouts of Stain on the day of the Dexter tragedy, as printed in the Boston and New York papers, was shown yesterday to Sheriff Mitchell, County-Attorney Appleton and Charles F. Stain, who were found in the office of Mr. Appleton, busily engaged on the case, which will come up be fore the Grand Jury the latter part of the

week.
The County-Attorney said at once that the The County-Attorney said at once that the evidence presented in the paper was not admissible, adding that what a stranger to Mr. Fowler had told him about another stranger would be excluded. Stain was a noted character about that section and his name might be easily used in jest.

"What we would like to see down here," continued he. "is the man who said that he

continued he, "is the man who said that he was David Stain, and see who he is and why

was David Stain, and see who he is and why he made such a statement."

Mr. Appleton said that this printed story will in no wise affect the proposed action of the Government, which will proceed as though it had never been printed. "We attach no importance to it whatever," said he.

Parties who are interested in the prosecution say that there is hardly a scintilla of truth in the alleged statement of Fowler regarding Stain. Fowler's relatives are said to be amazed at the story, and information comes from high authority in Massachusetts that there was no driving of sheep on that that there was no driving of sheep on that day by Fowler, that no such obstruction was then in the road and no colored boy living at Fowler's at that time. Word also comes that Fowler will never appear here as a witness. The house for a cobbler, mentioned in Fowler's story, was built at the railroad crossing six years ago. The gates, which were said to have been there when the sheep

arrived, were erected two yeans ago; none ever existed previous to this. It is also said that Fowler is not the man represented, but a ormer associate of Stain.
One government official says: "Of all the ies ever told about this case this last story is

the worst."

It is reported that there will be no less than sixty-two witnesses before the Grand

Digby Chandler said: "When The Eventor World takes hold of a thing it pushes it through, and it seldom picks up a subject that is not worthy of its support. Why should the workingman not be allowed a half day off? I hope The Eventor World will continue the fight and its good work."

H. D. Kent, ticket agent of the Fall River line of boats, is greatly in favor of the Saturday half holiday. To an Eventor World the world appreciate a Saturday half holiday. 'I doubt whether I shall accept thus invitation. I am of the opinion that the fight which the friends my built are presaring to make can be much more effectively waged on the floor of the House than before a committee. When the case is fairly before Congress I am satisfied the general sentiment will strongly lavor the appointment of receivers for these roads. In that even the Government can lose nothing, for honest receivers, though perhaps rare, can still be found. But, in this connection, let me say that in my opinion it will never be necessary for the Government is will never be necessary for the Government. I believe that as soon as the discount of the roads see that congress is thoroughly in earnest in this matter the money will either be forthcoming or ample security will be given for the debt in order to preserve to the companies the management of the roads."

THE VOTE ON THE SATURDAY HOLIDAY BILL BOTH CRUEL AND ILLEGAL.

CORONER MESSEMER DISAPPROVES THE ACTION OF HIS PHYSICIAN.

Dr. Conway Had No Right to Give Dr. Nammack an Order for an Autopsy on the Ravitz Infant-Legal Rights Disregarded-Dr. Nammack Insists that His Object Was Not to Regain the Silver Tubes

The story in this morning's WORLD of the autopsy illegally held on the body of Morris Ravitz's two-year-old boy, Charles, at 77 Henry street on Tuesday, aroused the indignation of every parent who read it, and has had the effect of drawing attention to the loose way in which orders for autopsies are granted.

The infant died on Monday afternoon of diphtheritic laryngitis, having been attended by Dr. William H. Nammack, of 27 Jefferson street. In the course of treatment Dr. Nammack inserted two small silver tubes in the larynx to prevent suffocation. The tubes proved to be too small and fell down the child's throat

Dr. Nammack, it is charged, demanded \$10 from the parents in payment of the tubes, but they were too poor to pay, whereupon, it is alleged, Dr. Nammack said he would open the body.

The next day he kept his word. He came to the house with his brother, Police Surgeon C. E. Nammack; William A. Conway, physician for Coroner Messemer, and Policeman Doherty, of the Madison street station. The policeman had been sent on the production by Dr. Nammack of a paper purporting to give Coroner Messemer's premission for the holding of the autopsy.

The parents protested against the body of their child being cut open, but they were pushed into the back room and the autopsy hurriedly performed. Dr. Nammack recovered his silver tubes.

It being conceded that the death of the child was due to natural causes the question has been raised as to the right of Dr. Conway to authorize the holding of the autopsy against the parents' wishes.

Coroner M. J. B. Messemer, Dr. Conway's superior, was interviewed on the subject by cian for Coroner Messemer, and Policeman

superior, was interviewed on the subject by an Evening World reporter this morning. He was greatly surprised at the facts nar-rated, saying that he had had no previous knowledge of the case and had not authorized the autopsy.

"Had Dr. Conway any right to permit another physician to make an autopsy?"

I was acting temporarily for Dr. Jenkins. If I made out a permit in Coroner Messemer's name it was a mistake."

Dr. Nammack denies that he made the autopsy to regain the two silver tubes.

"The man Ravitz is au ignorant Hebrew," he said, "and he accused me of having caused the child's death by inserting the tubes. I feared he would sue me for damages and wanted an autopsy to determine that death was due to natural causes. I would not perform an autopsy for the value of the tubes, anyhow. It is a very unpleasant task."

A seedy-looking old man was at the marriage o Alderman Divver's daughter. He sat down in an empty pew in the church, watched the marriage ceremony with some interest, and after all had gone was found there by Policeman Chrystal, who recognized him as a well-known old crook named William Pearson, slius "Funeral" Pearson. He is now over seventy-three years of age. He was is now over seventy-inree years of age. He was taken before Justice Power at the Tomas and Priday morning was sent to Blackwell's Island on the charge of vagrancy for the period of six months. The old man has picked pockets or tried to pick them as long as the police femometer. Follocman O'lirien said that he remembered him twenty years ago and that he had always been plying the same trade. His favorite practice was to get into the midst of a crow! of young shop girls and pick their pockets. Here is his prison record:

March 11 1881 One vent assault with intent to steal

March 11, 1881 - One year; assault, with intent to stea as pickpocket.
March 29, 1882—One year; petit larceny.

ASSEMBLYMEN WANT A HOLIDAY. A Resolution to Adjourn for One Week Sent to the Scante To-Day.

ISPECIAL TO THE WORLD.1 ALBANY, Feb. 16 .- Mr. Roesch created quite rumpus this morning in the Assembly when he offered a resolution to adjourn for one week pending the repairs to the Assembly

chamber ceiling. Judge Morgan and Messrs, Burns, Hamilton and McEvoy protested that this would delay final adjournment to June 1. The House was already behind in its business, They begged that legislation should be rushed as speedily as possible, in order that the members could get ready for the State and National Convention.

Judge Morgan moved to amend by placing the date for adjournment for Monday even-

Tim Sullivan wanted to stay here until Christmas, provided his salary was continued, while Dan Finn and Eddie Hagan begged that the recess be postponed until certain pet measures of theirs became laws.

The motion was voted down, and Mr. Roesch's was carried by a viva voce vote.

The resolution was immediately sent to the Senate for concurrence.

### HINTS OF BRIBERY. An Interesting Investigation on Foot in the New Jersey Legislature.

INPRCIAL TO THE WORLD. TRENTON, N. J., Feb. 16.-Hints of bribers and corruption have been flying about lately in regard to the methods by which the Jersey City Bridge bill has been defeated in

former legislatures.
There are also rumors of attempts to extort money from the sugar houses in relation to the bridge bill which passed yesterday, and of a mysterious conference at Taylor's Hotel. Hotel.

This morning Mr. McDermitt, of Essex, rectifing these facts, offered in the House a resolution providing for a committee of investigation. It was adopted almost without

The incorporators of the company simply ask for a charter unde ators of the company simply ask for a charter under the laws of the United States, but Representative Paelan was determined to give them much more, and fought hard to attach an amendment placing the canal under the control of the United States and pledging the Government to defend it in case of war, on the ground of his being a part of the coast line. Mr. Phelan's motion was defeated, but he will make a vigorous effort to secure its at-tachment to she bill in the House. The incorpora-tors claim that if he is successful they will be un-able to secure a dollar of capital in any foreign country.

At 11 o'clock Policeman William O'Hara brought, into court a slender young man, with just the faintest semblance of a mus-

with just the faintest semblance of a mustache on his lip. His face was covered with scratches, and blood marked a handkerchief which he passed over his face frequently.

The little woman buried her face in her handkerchief and her body swayed back and forth with her sobs. The prisoner was her husband, Charles Giblin, of 424 West Fifty, fifth street, and she had learned through Tun World of this morning, that he was under arrest and had committed a murder.

At 162 West Houston street, a number which serves for two narrow stores, in one of which Valentine Goez and Madeline, his wife, dealt in groceries, and in the other Nicholas Goez Valentine Goez and Madeline, his wife, dealt in groceries, and in the other Nicholas Goez and Mary, his wife, kept a bakery, the grocer and his wife were lying in a precarious condition at this hour. Valentine had a pistolball in his left shoulder, while another bullet had ploughed its way from his chin along his jaw and was imbedded in the back of his neck. Madeline, his pretty young wife, was dying from a pistol-shot wound in the abdomen.

the abdomen.

A priest from St. Anthony's Church had administered the sacrament of extreme unction to her this morning. She remained unconscious and died at 12.20 o'clock.

Last night while the baker and his wife in their rooms back of the store, and their brother and sister were looking after trade, young Giblin entered and purchased thirty cents' worth of bakestuff. He tendered a counterfeit five-dollar bill in payment, the counterfeit was detected and the grocer refused to return the bill. A fight ensued, and Giblin shot the grocer twice, whereupon Mrs. Goez sprang in between the two men just in time to receive the third shot in the abdomen.

Giblin was arrested by Policeman O'Hara and locked up in the Mercer street station. The crowd which gathered was furious and was kept away from Giblin with some difficulty by Policeman George F. Smith, of the Prince street station.

Dr. E. J. Donlin was bastily called, and as the wounded woman had very recently been confined, he decided that it would not do to probe for the ball, and reluctantly informed the two families that she must die. Turning his attention to the husband, he found that Goez's wounds were not very serious. When she learned this the devoted little wife exclaimed fervently: "Praised be God. I saved my husband."

my husband!"

Giblin says that he is a wireworker, and had been employed at his trade in Worcester, Mass, for five years, coming to New York in October last, since which time he has been unable to obtain work. He was destitute, and yesterday went to Brooklyn to look for work in the Long Island Wire Works. He was unsuccessful, and was on his way home when he stopped before the bright window of Goez's little bakery and went in.

He declares that Goez and his wife attacked him and had him down when he saw a silver-plated nistel eleganing on the floor. He saws

After he had been taken out of court the sobbing little wife staggered out also and wandered away up the avenue as if dazed. Giblin has a child.

The pistol mysteriously disappeared after the shooting, but the Goez families unite in saying that Valentine never owned or possessed such a weapon. Nicholas Goez and his wife are prostrated by the calamity which has overtaken their brother and sister.
